

A DESIGN STUDIO FOR AI AGENTS

Ideas become editable.

Create graphics, documents and motion. Keep the layers. Keep working.

MEET VIXL →

KEEP THE DOCUMENT

One master. Room to **change**.

Live text + vectors

Edit copy, paths, masks and effects.

Reusable ingredients

Variables, templates and containers.

Reviewable source

Unpack designs into JSON and assets for Git.

FROM BRIEF TO FILE

Build. Check. Look. **Deliver.**

01 **Inspect**
Read layers, bounds and fonts

02 **Apply**
Editable, atomic operations

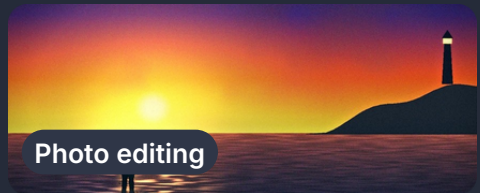

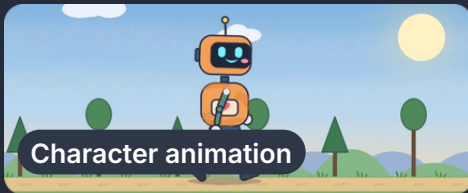

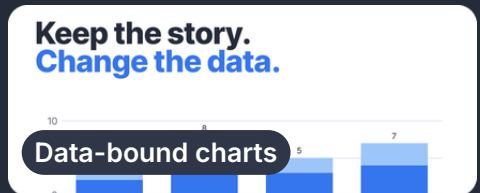

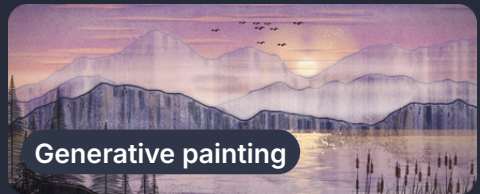

03 **Check**
Design checks and saved suites

04 **Preview**
Render and review the work

05 **Export**
PNG, SVG, PDF, PPTX, MP4 ...

ALL MADE WITH VIXL

A whole creative workflow.

MAKE ONCE. PUT IT TO WORK.

Beyond a single image.

01 Campaigns

Checked variants from typed recipes.

02 Documents

Native charts in PPTX. Fillable PDFs.

03 Motion

App states, themes and reduced-motion stills.

START CREATING

Give your agent a design studio.

Install Vixl, connect through MCP, or build with the CLI, Python and REST.
