

My first AI experiment

Pick one low-risk task, try two prompts, and note what changed. Type in this PDF or print it.

1 About you

Full name *

Team code (e.g. OP-114) *

Date

Tool you used

2 Plan

What task will you try? Keep it low-risk.

If the AI gets it wrong, how much does it matter?

☐

Hardly at all

☐

Somewhat: I will check carefully

☐

A lot: pick another task

3 Try

Your first prompt, exactly as you typed it

Your improved prompt: add context, format, an example

4 Reflect

What changed, and what did you have to fix?

Usefulness, 1 to 5

Minutes saved (estimate)

☐

I checked the facts

☐

I kept personal data out

☐

I would use it again
